

Are you
ready to
return?

“I’m now ready to focus
on my career again.”

Pippa - Mammography Radiographer

If you trained as an allied health professional (AHP) or a healthcare scientist (HCS), but have since left the profession, Health Education England runs a programme that can provide help and information if you want to return to practice.

You already have the skills and experience to make a big difference to patients, clients, carers and their families and we want to help you on your return to practice journey.
