

## Public Health England (PHE) Screening blog

[phscreening.blog.gov.uk](https://phscreening.blog.gov.uk)

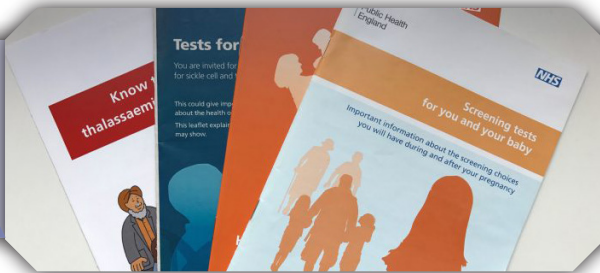

The blog is the best way to keep up to date with national developments, guidance and resources relating to screening in England. You can subscribe to get email alerts about new articles.

## Screening helpdesk

[phscreening.blog.gov.uk/helpdesk](https://phscreening.blog.gov.uk/helpdesk)

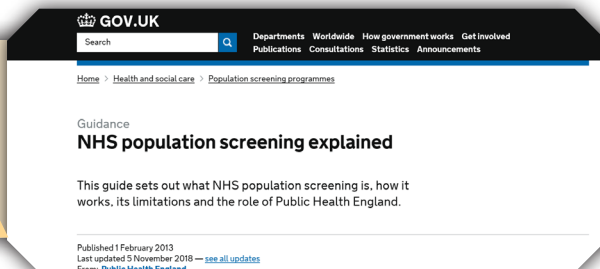

The PHE screening helpdesk is a centralised service providing a single way for professionals and the public to contact the PHE screening team, including the UK National Screening Committee secretariat.

## Ordering leaflets

[www.gov.uk/phe/screening-leaflets](https://www.gov.uk/phe/screening-leaflets)

View all the leaflets to support NHS population screening programmes, guidance on how to order them and the restrictions around their use.

## Information for professionals

[www.gov.uk/phe/screening](https://www.gov.uk/phe/screening)

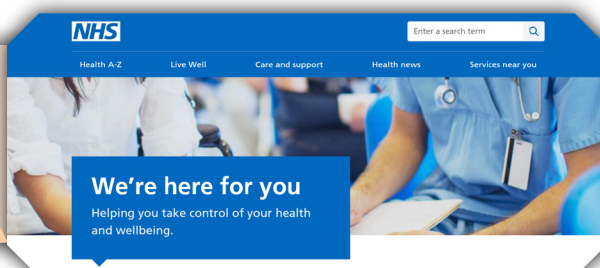

Information on GOV.UK includes details about what population screening is, the role of PHE, guidance and data on each of the screening programmes, and quality assurance reports and resources.

## Education and training materials

[www.gov.uk/guidance/nhs-population-screening-education-and-training](https://www.gov.uk/guidance/nhs-population-screening-education-and-training)

Resources, including e-learning, to support screening professionals in their initial training and continuing professional development (CPD).

## Information for the public

[www.nhs.uk/screening](https://www.nhs.uk/screening)

Information on all the screening programmes for the public and links to the conditions screened for, treatment options and support groups.
