

An Ode to Cumbria Collaborative Working

This is a story of collaborative working
Between CHIS and antenatal screening

We met at meetings and even a workshop
To better understand each other's job

We tackled the pathway of Hepatitis B
And we have done the same for the BCG

NBBS and improved Data flow
Keeps each other in the know

Our two organisations will soon become one
But for us the hard work is already done

We will continue to work, strive and test
To ensure our children always receive the best

Composed by Anne Edwards North Cumbria CHIS Team Leader at Cumbria Partnership NHS
Foundation Trust
